BURST OF SUNSHINE Vitamin D	£79
GLASS SKIN Biotin	£129
GLUTATHIONE PUSH	£79
THE VEGANUARY Vitamin B12 & B6	£129

WHAT IS AN IV DRIP OR AN IM SHOT?

IV drips deliver vitamins and nutrients directly into the bloodstream whilst IM shots are delivered directly into the muscle for prolonged release of the nutrient. Both are a low risk way of delivering vitamins and nutrients.

WHO ADMINISTERS THE IV DRIPS & IM SHOTS?

Our team of GMC Registered, highly experienced doctors will be administering the treatments and will be monitoring closely during treatment. All doctors are trained to deal with any emergency situation that may arise.

HOW LONG DOES THE PROCEDURE TAKE?

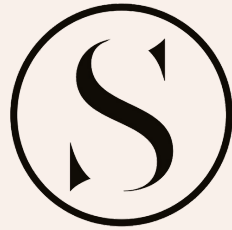

IV Drips 45-60 mins
IM Shots few moments

WHEN CAN YOU RETURN TO NORMAL ACTIVITIES?

Immediately.

HOW MANY DRIPS CAN ONE HAVE?

We don't recommend more than 2 drips/shots a week or more than 9 drips/shots in 6 months.

SKIN
